

LEONARDO RIVA

leonardoriva@proton.me

I'm a Data Engineer with three years of experience working with data warehouses, ELT pipelines and data-processing applications. I have a background in Computer science and Data Science. I am currently seeking a role in an organization where my work can make a tangible impact on the world.

Work Experience

Agile Lab

Remote (Italy)

Data Engineer

Oct 2024 - Now

- Worked as a consultant for a european client in the vehicles manufacturing industry
- Developed and version-controlled Snowflake schemas and objects using SnowDDL, optimizing data structure and deployment, often connected to integrated AWS/Azure
- Built scalable ELT pipelines using dbt and dlt
- Created GitLab CI pipelines to automate deployments
- Built automated dashboards (Elementary) and monitoring pipelines (GitLab Pages + Teams webhooks) to guarantee reliability

Kineton

Milan (Italy)

Data Engineer

Feb 2023 – Oct 2024

- Worked as a consultant for an italian client in the Telco field implementing Data Engineering and DevOps solutions that include on-premise to GCP migrations (using GKE, Cloud Build, Cloud Storage, BigQuery, etc.), ETL pipelines, ad-hoc Python and Bash scripts
- Training on data engineering tools (cloud platforms, ETL pipelines, containerization)

Education

University of Milano Bicocca

Milan (Italy)

Master's degree in **Data Science**

Oct 2020 – Oct 2022

- Final grade: 110/110 with honors
- Data science research fellowship until Dec 2022

Bachelor's degree in **Computer Science**

Oct 2017 – Jul 2020

- Final grade: 110/110 with honors

Skills

Programming. Mainly Python, familiar with Java, C

Databases. Relational (MySQL, PostgreSQL), familiar with non-relational (MongoDB)

Data Engineering. Data Lake & Warehouse (Snowflake), ETL/ELT and batch/streaming data processing (dlt, dbt). Familiar with Apache Kafka - Spark - Airflow

Cloud & DevOps. Cloud platforms (GCP, AWS), containerization (Docker, Kubernetes), IaC (SnowDDL, Terraform), DevOps and CI/CD (GitLab CI/CD)

Data Science. Academic knowledge of machine & deep learning (Sklearn, Keras) and data visualization (Matplotlib, Plotly, Tableau, Streamlit)

Other. Unix shell, code versioning (Git), LATEX, Office suite (Microsoft, Google), AGILE methodology

Languages & Certifications

Languages. Italian (native), english (proficient)

Certifications. Google Cloud Platform - Professional Data Engineer (september 2023)
